### Houghton Road Update

Even Houghton Road project is on schedule with all the rain. We appreciate all of the Village residents patience during construction.

## Rainfall

Spring weather has brought us above normal amounts of rain. We have taken many calls regarding water issues, back up, and problems with the neighbors water traveling onto the callers property. With this amount of rainfall expect to see more water traveling through yards. Things to think about at this time to help prevent these issues.

Make sure your gutters, downspouts and drains are connected to a storm system. If they are not this will add additional water in the yard. If a storm system is available it would be best to connect into the public main storm system. It is unlawful to stop the natural flow of water. Please be advised, if you are the lower property you will accumulate more water than the properties above you.
